# EXPRESS-JATRAKHANA

## An Android Project Proposal

# Contributors of project JATRA-KHANA:

Name: Ridwanur Rashid Siam

# 01

# Introduction

# About the Project

Platform: Android Studio
Language: Java

# What is the Story Line?

When we need food, have to walk a lonnggg distance from own seat.

But what if we can order our food from our seat and someone from the buffet bogie deliver our food to our own seat?

# What is the Story Line?

We can automate this food delivery system by implanting a simple, easy to use but really effective

# 02

## How to Play the Application

# 03

# Future Plan

# Plans for Development:

1. Implementing all the ideas that was in the main concept.
2. Adding more features and characters by reviewing real life data and feedback of the passengers .

# Thanks!
